Cactus Varieties

In our trial grounds during the past summer these varieties attracted great attention. The flowers are very large size, most of them distinct and unique in form, habit very vigorous, growing some five feet high and free flowering.

All will be found desirable additions to any collection.

Cultural Notes—The soil must be deeply dug to a depth of two spades, with a liberal amount of well-decayed stable manure or pure bone meal. Plant 3 feet apart. Soon as the shoots appear remove all but 2 or 3 of the strongest, and when a foot high secure to stout stakes.

When cut by frost in the late autumn, lift and store away in a dry place.

Those marked **G** are **Green Growing Plants**, which are the newer variety. 3-in. pots. These will give equally as good results as dormant roots (many experienced planters will only plant green plants) and by the time they are cut by frost they will have produced strong roots which can be carried over the winter in the usual way. Except where noted we supply Dahlias in dormant roots.

Plants of varieties in this Catalogue will be available the first week in May. About the 15th of May is the best time for planting Dahlias. When ordering always make a second choice in case of being sold out of any particular variety.

- ALABASTER**—A flower of purest white. The blooms are of large size, and just sufficiently incurved to show to advantage when exhibited. The plants are sturdy and dwarf, and carry the flowers boldly on stout erect stems. Each \$.50
- AMOS PERRY**—Flowers large, with long petals, color fiery red; one of the earliest and freest flowering. Each .25
- ALEX KENNEDY**—Color deep crimson throughout. Blooms often nine inches across, and stems carry the flowers erect Each .35
- BASILISK (G)**—Orange scarlet. One of the largest varieties and every bloom comes good..... Each .35
- BRITISH LION (G)**—Yellowish tinged red, distinct, gigantic flowers Each .75
- BODEKA (G)**—Large flower, pink shading to a lighter centre Each .50
- CONSTELLATION (G)**—Yellow striped crimson. Extra large Each .75
- CURLEW (G)**—Old rose, pleasing self color. Large and full Each .35
- DOMINION (G)**—A splendid exhibition flower. Colour, old gold, with a reddish tinge..... Each .50
- DOROTHY HAWES (G)**—Ruby red, long incurving florets. Each .35
- EDITH CARTER (G)**—Yellow, heavily suffused bright rosy-carmine, good erect habit..... Each .50
- EMPEROR (G)**—One of the finest cactus Dahlias yet introduced. Color, rich purplish crimson Each 1.00
- FEARLESS**—One of the largest of this class; florets long, incurved, and quite narrow, making up an immense flower. Color, orange scarlet..... Each .35

F. W. FELLOWS (G) —Flowers extra large, on very long stems. Color, orange scarlet.....	Each	.50
GIGANTIC (G) —A monster exhibition Cactus Dahlia, but the flower stems are pendant. The blooms are of enormous size, more massive than wide, and the form is perfection. Color, pure old gold.....	Each	.50
GOLDEN WAVE —Color, deep pure yellow. The plants are splendid robust healthy growers.....	Each	.35
GOLDEN FLEECE —Pure yellow.	Each	.35
GOLDEN RAIN (G) —Clear Yellow, shading to primrose at the tips.	Each	.50
HARRY CRABTREE —Color, a purple crimson at base of florets to yellow at tips, with yellow again at centre where florets are unopened.....	Each	.35
H. H. THOMAS (G) —Few varieties combine so many good qualities. The flowers are of beautiful formation, the color being a deep rich crimson. In habit the plants are second to none.....	Each	.35
JOHN RIDING (G) — Fine variety of a rich crimson color	Each	.35
JUPITER (G) —Pink ground, with yellow base to each floret, then striped crimson	Each	.35
JULIUS —Buff ground, deeply edged with crimson; a neat compact flower of the finest form and very free	Each	.35
KINGFISHER — In color a distinct pure lilac. Plants strong erect growers	Each	.50
LAPWING —Orange shaded red, large blooms of good quality	Each	.50
LIEUT. ROBINSON, V.C. —One of the indispensables to the up-to-date exhibitor. The flowers are of large size, and composed of a mass of narrow florets, incurving, twisting and interlacing. The plants are of wiry growth, and fairly good habit, but the flower stems are not upright. Color, clear ruby, with amaranth at tips	Each	.35
MARATHON —Orange, passing to rose pink at points of the florets, and with yellow centre, large in size.	Each	.35
MAGNIFICENT (G) —In strong contrast to the incurved varieties this is a Cactus having perfectly straight florets, but of great length, the flowers measuring nine inches across. Color deep orange. Its great size and striking color, combined with its novel form, makes this a pleasing addition. The flowers continue full centered throughout the season.	Each	.50
MELODY —One of the finest, being of splendid regular form with full high centre and reflexed outer petals. Colour clear canary yellow, tinting to creamy white at the tips; an effect so delicate and pleasing as to suggest the name.	Each	.35
MERRIDEN (G) —Size of flower and general quality being first class. Color is clear light yellow.	Each	.50
MISS STREDWICK (G) —Soft yellow changing to deep pink	Each	.35
MRS. BRANDT —Very large, yellow, shading to salmon buff	Each	.35
MRS. C. COOPER (G) —Cream outer petals lightly suffused salmon, florets of immense length, slightly and regularly incurved, fine centre.....	Each	.35

MRS. E. HAMBER (G) —One of the largest and best red dahlias yet introduced	Each	.50
MRS. A. HARVEY (G) —This will rank with the best that has been raised. A large full flower and a beautiful color of light salmon pink.....	Each	1.00
MRS. M. STREDWICK (G) —The colour being a combination of tints of pink softening and deepening at the tips and base	Each	.50
MYSTIC (G) —Quite a distinct shade of colouring, that being clear yellow shading to scarlet, with yellow tip	Each	.75
NEW YORK (G) —One of the largest incurved varieties, with long narrow tubular petals of a salmon-rose color, with bronzy shadings	Each	.35
NEPTUNE (G) — Color, deep rose pink, speckled and striped with carmine	Each	.35
OLYMPIC (G) —A flower of deep rich crimon color and truly massive proportions	Each	.35
PENNANT (G) —One of the best Cactus Dahlias. The form is perfect of the pronounced type and the color a beautiful deep yet clear coral.....	Each	.50
PHENOMENAL —This Dahlia phenomenal is totally distinct. The flowers are more like certain Japanese Chrysanthemums than a Dahlia. Color, shades of of pale salmon with yellow at base, and decided yellow at tips	Each	.50
PATHFINDER (G) —Very long and narrow petals, incurving. A first rate exhibition flower of soft pink color	Each	.35
PIERROT (G) —Flowers very large and the color deep amber with white tips	Each	.35
RHEIMS (G) —The flowers are large and deep, the color is yellow at the base, then salmon pink, with yellow tips	Each	.35
RIVAL (G) —Crimson scarlet, a deep and full flower. The stems are long and carry the flowers upright when cut	Each	1.00
ROYALIST (G) —The color can only be described as crimson, as a decided purplish tinge shown at the tips.	Each	.50
ROYAL SUSSEX (G) —Blooms are of exceptional size, slightly incurved florets of a glowing red, shaded with orange	Each	.75
SEARCHLIGHT (G) —This might almost be described as a yellow form of the variety "Miss Stredwick," the plants being very similar in growth and habit. It is a typical exhibition Cactus, the flowers being large and beautifully, although not excessively incurved in form, and the florets are narrow throughout their length	Each	.35
SCORPION —Quite a novelty in form with florets so incurved and interlaced as to almost meet in the centre. The blooms are of medium size and clear light yellow in color	Each	.35
SILVER HILL PARK (G) —Pure white, massive in size and beautifully incurved, with perfect centre.....	Each	1.25
SOVEREIGNTY —Quite the largest of the yellow varieties.	Each	.35

SIR D. HAIG (G) —One of the best. The blooms are large very full, and of a pleasing combination of tints of pink, grading to an almost clear white at the centre; quite first-rate	Each	.35
SIDNEY JONES (G) —A refined flower of the highest quality, large and of a beautiful deep pink shade on a disc of clear yellow	Each	.50
THE QUAKER —Medium size flowers of flesh pink. Each		.35
TILlicum (G) —Very large amber color.....	Each	.50
VALIANT (G) —A giant crimson scarlet flower; it is most reliable and a real acquisition, first-rate in every way	Each	.35
